## Quality Concerns in Teacher Education

6 and 7 February 2014

Organized by  
**School of Education**  
**Christ University**  
Hosur Road, Bangalore-560029

## Christ University

Christ University was established as Christ College in 1969 with the motto “Excellence and Service” to provide quality education to younger generation. Christ College was affiliated to Bangalore University till it attained Deemed to be University status in July 2008. It has the rare distinction of being the first to be reaccredited by NAAC with A+ grade, for quality education. The University offers UG, PG and Doctoral programmes. UGC also identified it as an institution with Potential for Excellence.

## School of Education

School of Education, established in 2006, strives to promote high academic standards in education, by creating an optimal and enriching learning environment, fostering ongoing professional and personal development thereby contributing effectively to societal needs. The Department runs a range of programmes which include Certificate Programme in Education, Bachelor of Education, Master of Arts in Education, Master of Philosophy in Education and Doctor of Philosophy in Education.

Value added programmes towards holistic development are inculcated through theater in education, life skill education, leadership training and interpersonal skills. These programmes encourage students to consider careers and life mission that integrate educational understanding to life. School of Education through innovative programmes prepares competent and professional teachers and educationists who will contribute significantly in the field of education.

## About the Seminar

Teacher Education is an important area of concern in our education system. Many commissions were established to improve and change the status of Teacher Education in India. Development of a country depends on the quality of the teachers. Colleges of Teacher Education should take a variety of initiatives to transform the nature of education.

Quality indicators in Teacher education include Curriculum, Pedagogy, Teaching practice, Personality development, and Communication skills. Provision for in-service education, inclusive education and technology based education are needs to be incorporated for ensuring quality. The teachers have to understand the changing roles and function of education.

Colleges of Teacher Education needs to be acquainted with inclusive class room and its

requirements. Which might require a number of changes in present day teaching practice, curriculum, evaluation procedures and available resources at the school level. The goal of providing quality education would remain elusive so long as all the quality indicators are not linked to broader discussions on pedagogy and learning experiences. Information and Communication Technology becomes one of the main quality indicators to bring efficiency in the system.

The discussions and deliberations regarding quality concerns in Teacher Education from the seminar would help the policy planners, administrators, teaching fraternity to reflect, respond and welcome the changes in the system.

## Objectives

The National Seminar on Quality concerns in Teacher Education provides opportunity for educationist

- To develop awareness on some best practices in Teacher Education to meet global challenges.
- To create a platform for sharing knowledge of quality control indicators in Teacher Education.
- To prepare teachers for inclusive education.
- To define values and Life skill Practices in Teacher Education.
- To integrate ICT in Teacher Education.
- To train teachers in innovative evaluation methods.

## Call for Papers

Papers on the following sub themes are invited.

- Best practices in Teacher Education to meet the global challenges
- Quality Control indicators in Teacher Education
- Preparing teachers for Inclusive Education
- Life skill Practices in Teacher Education
- ICT integration in Teacher Education
- Training teachers in innovative evaluation methods
